Re: Final Acceptance of Notice of Intention, Picture Rock Quarry, S/037/099, San Juan County, Utah

Dear Mr. Shumway:

Thank you for your response received October 19, 2000, to our conditional approval letter which was sent to you on October 11, 2000, by submitting a map showing the location of your Picture Rock Quarry small mining project. The project is located in Sections 3 & 4, T38S, R24E, San Juan County, Utah. Your notice is now considered complete, and no further information is required by the Division at this time. You may operate as outlined in your notice, provided you have received approval from the Bureau of Land Management.

You also attached a note stating that you were complying with Rule #10 of the operation and reclamation practices. This rule refers to stockpiling topsoil material prior to starting mining operations. Following this practice will help ensure successful revegetation efforts upon final reclamation of the minesite. Should you wish to expand your operation beyond the five (5) acre limitation, please notify this office as soon as possible to discuss the necessary permitting requirements. Approval of a large mining notice could take from six to twelve months or longer.

Best of luck with your mining operation. Please continue to keep us apprised of your mining operation. If I can be of further assistance to you, please contact me at (801) 538-5382.

Sincerely,

Doug Jensen
Senior Reclamation Specialist
